March 2001

FOREWORD

The Department of Health and Family Services is mandated by the Wisconsin Legislature under section 153.20 Wisconsin Statutes to prepare an annual report on uncompensated health care in Wisconsin hospitals [including general medical/surgical (GMS), psychiatric (psych), alcohol and other drug (AODA), and rehabilitation (rehab) hospitals]. This report summarizes data collected from the *FY 1999 Hospital Uncompensated Health Care Plan Survey* and the *FY 1999 Hospital Fiscal Survey*.

This report:

- Can be used by legislators and policy makers to determine the level of uncompensated health care provided in various areas of the state. This, in turn, can lead to discussions of whether the burden of uncompensated health care is fairly shared by all hospitals.
- Can be used, in conjunction with other available information, by insurance companies and other third-party payers and by business or consumer groups to determine the extent to which uncompensated health care affects hospitals' charges and their ability to provide services to a community.
- Can be used as a resource document for persons wishing to conduct research or to seek information on uncompensated health care.

This publication is not an exhaustive list of all data collected through the surveys. Readers desiring additional information on uncompensated health care or on a specific hospital should contact the Bureau of Health Information regarding the availability and cost of specific data requests.

Judith Nugent, Chief, Patient-Level Data and Analysis Section, supervised the report's preparation. Kim González and Arnie Clay, Research Analysts, generated the data; Mary Eichler revised the text; and Patricia Nametz edited the report. This report was produced under the overall direction of Sandra Breitborde, Deputy Director, Bureau of Health Information.

Questions about the report should be directed to:

Bureau of Health Information
Division of Health Care Financing
P.O. Box 7984
Madison, WI 53707-7984
Telephone: (608) 266-7568
Fax: (608) 264-9881
E-mail: askbhi@dhfs.state.wi.us

Persons with hearing or speech impairments may call 1-800-947-3529. The message will be relayed to the correct agency.

SUMMARY

This document examines uncompensated health care data for Wisconsin hospitals that were required to provide this information to the Department of Health and Family Services under section 153.20(2), Wisconsin Statutes. This report is based on data submitted by hospitals for the entire fiscal year 1999 (FY 1999).

- One hundred twenty-nine Wisconsin hospitals provided \$301 million of uncompensated health care services to their patients in fiscal year (FY) 1999, either as charity care (\$116.8 million) or as bad debt (\$184.2 million).
- General medical-surgical (GMS) hospitals provided \$115.7 million in charity care and \$182.3 million in bad debt, while specialty facilities reported \$1.1 million in charity care and \$1.9 million in bad debt.
- Total uncompensated health care grew from \$257.3 million in FY 1998 to \$301 million in FY 1999. GMS hospitals reported an increase in uncompensated health care from \$252.5 million in FY 1998 to \$298 million in FY 1999. Reported uncompensated health care for specialty facilities in FY 1999 decreased to \$3 million from \$4.8 million in FY 1998.
- Forty-one of the 129 hospitals included in this report each delivered more than \$2 million of uncompensated health care in FY 1999. Of these, 28 incurred more than \$2 million in bad debt and 19 delivered more than \$2 million in charity care. Hospitals in Milwaukee County accounted for the largest share of overall uncompensated health care dollars, at \$107.7 million (35.8 percent); charity care, at \$40.7 million (34.8 percent); and bad debt, at \$67.0 million (36.4 percent).
- Measured as a percentage of total gross patient revenue (charges), total uncompensated health care at GMS hospitals and all Wisconsin hospitals remained about the same from FY 1998 (2.9 percent) to FY 1999 (3.0 percent). At specialty facilities it decreased from 3.9 percent in FY 1998 to 3.2 percent in FY 1999.
- Charity care represented 1.1 percent of gross patient revenue at both GMS hospitals and specialty facilities. Bad debt equaled 1.8 percent of gross patient revenue at GMS hospitals and all hospitals combined, and 2.0 percent at specialty facilities.
- Measured as a percentage of total gross nongovernment revenue, total uncompensated health care averaged 6.0 percent at GMS hospitals and all Wisconsin hospitals. Specialty facilities averaged 5.2 percent.
- Charity care accounted for 2.3 percent of nongovernment revenue at GMS hospitals and all hospitals combined, and 1.9 percent at specialty facilities. Bad debt accounted for 3.7 percent at GMS hospitals and all hospitals combined, and 3.3 percent at specialty facilities.
- In FY 1999, 129 hospitals provided uncompensated health care services to 731,440 patients, up from 701,057 patients served by 129 hospitals in FY 1998.

- Eleven hospitals still have Hill-Burton obligations because of grants they received between 1946 and 1974 from the federal government. In return for these grants, these hospitals agreed to provide a reasonable amount of reduced-cost or no-cost services.

UNCOMPENSATED HEALTH CARE IN WISCONSIN HOSPITALS FOR FISCAL YEAR 1999

All Wisconsin hospitals [including general medical-surgical (GMS), psychiatric (psych), alcohol and other drug addiction (AODA), and rehabilitation (rehab) hospitals] that are not funded through the state or the Federal government are required by law to submit annual uncompensated health care information to the Bureau of Health Information (BHI), Department of Health and Family Services (DHFS). Each hospital submits a FY Uncompensated Health Care Plan and a FY Hospital Fiscal Survey directly to the BHI within 120 days after the close of its fiscal year.

This report is based on data collected from 129 Wisconsin hospitals that submitted uncompensated health care and fiscal information for the entire FY 1999. Four Wisconsin hospitals are not included in this report due to a change in fiscal year, or a closure of the facility. These hospitals are: Charter Behavioral Health System, West Allis; Charter Northbrooke Behavioral Health System, Brown Deer; Children's Hospital of Wisconsin – Kenosha, Kenosha; and Vencor Hospital – Mt. Carmel, Milwaukee.

The following data were gathered from hospitals that submitted information:

- The hospital's total charges attributed to charity care, bad debt, and total uncompensated health care in its most recently completed fiscal year (FY). This information is obtained from final audited financial statements;
- The number of patients (both inpatient and outpatient) to whom the hospital provided uncompensated health care services during the most recently completed fiscal year;

- The projected total charges attributed to charity care, bad debt, and uncompensated health care for the next fiscal year;
- The number of patients (both inpatient and outpatient) to whom the hospital expects to provide uncompensated health care services in the next fiscal year;
- The hospital's rationale for uncompensated health care projections;
- Definitions of the terms the hospital uses in its uncompensated health care plan that may be subject to interpretation;
- The procedures the hospital uses to determine a patient's ability to pay for health care services, and to verify financial information submitted by the patient;
- The procedures used to inform the public about charity care available at that hospital; and
- What Hill-Burton obligations (see definition, page 15) are required of the hospital, when the obligations will be satisfied, and the dollar amount still under obligation.

BHI maintains a file of uncompensated health care data submitted by Wisconsin hospitals for public use. Appendix 5 contains a copy of the *FY 1999 Hospital Uncompensated Health Care Plan* and the *FY 1999 Hospital Fiscal Survey*. By reviewing the plan and survey, readers can see the scope of uncompensated health care data that is collected. Persons interested in obtaining more information should contact BHI regarding the availability and cost of specific data requests or copies of hospitals' uncompensated health care plans or fiscal surveys.

What is Uncompensated Health Care?

The hospital community has traditionally used the term *uncompensated health care* to encompass two components: charity care (also known as community care or indigent care) and bad debt. In theory, each component of uncompensated health care plays a distinct and separate role. Charity care is care for which a hospital does not charge because it has been determined that the patient cannot afford to pay. Bad debt, however, comes from care for which payment is expected, but the hospital is unable to collect.

Historically, separating charity care from bad debt has been complex because of the way different hospitals defined and reported these components for accounting purposes. For example, the charges one hospital wrote off as bad debt, another hospital called charity care. Some hospitals did not clearly distinguish between charity care and bad

debt in their accounting procedures.

Nevertheless, the distinction between charity care and bad debt is important. Charity services are an important indicator of a hospital's fulfillment of its charitable obligations. The amount of bad debt a hospital incurs, however, directly influences the amount of charity care that remains available.

Effective July 1990, BHI adopted new American Institute of Certified Public Accountants (AICPA) guidelines that require hospitals to report charity care as a deduction from revenue, and to treat bad debt as an expense. Although hospitals retain flexibility in setting their own guidelines for distinguishing charity care from bad debt, these changes have resulted in more accurate and consistent reporting of the components of uncompensated health care over time.

Measuring Hospitals' Contributions to Their Communities: A Complex Issue

Assessing hospitals' charitable contributions to their communities is difficult. Even when charity care and bad debt are clearly separated, measuring what a hospital gives back to the community, or directly comparing one hospital's contribution to another's, remains a perplexing problem. One reason is that hospitals support their communities through other free or low-cost services, which are not easily quantifiable and which cannot be included in uncompensated health care totals. These services may include blood pressure tests, cholesterol screening, health education programs, and support groups for people with illnesses or

other conditions. These additional services are referred to as "community benefits."

The level of charity care for a particular hospital may reflect a charitable mission of the hospital, or may reflect the socioeconomic conditions of the patients and the service area of the hospital. A low level of charity care does not necessarily mean a lack of commitment to serve the community.

Because of the difficulty in reporting charity care, there are no concrete standards regarding the "appropriate" amount of uncompensated health care that a hospital should provide. Many

of the circumstances that determine how much uncompensated health care a hospital actually delivers are beyond its control.

There is a limit to the amount of uncompensated health care that a hospital can provide if it is to remain a financially healthy institution. Ultimately, a facility will face operating losses if enough charges are uncompensated, whether they are attributed to bad debt expense or to charity care. Sometimes a hospital can recover uncompensated health care by shifting costs to other payers, by subsidizing uncompensated charges with nonoperating revenue (e.g., from parking lots, gift shops,

endowments), or by increasing prices for hospital services.

The intention of this report is not to evaluate a hospital's provision of uncompensated health care. The intention of this report is, however, to highlight trends in uncompensated health care, to stimulate discussion about how these services affect hospital finances, and to make this information available for public use.

County General Relief

Effective January 1, 1996, each county now determines the health care services it will cover, who is eligible to receive those services, and how the services will be funded. As a result, 49 of Wisconsin's 72 counties make general relief payments to hospitals.

Many counties cover only selected medical services, and limit payments for medical services to various classes of recipients, such as the disabled. Counties are not required to offer a medical services component. However, if counties provide cash benefits, they must offer the medical services component.

Appendix 4 lists the Wisconsin hospitals that had gross county general relief revenue in 1999 in excess of \$500,000 or one percent of the hospitals' total gross patient revenue. The dollar amount of gross revenue received from general relief, the proportion of total gross patient revenue that general relief represents, and the average reimbursement rate are listed for each facility.

Variation in average reimbursement rates can result from inconsistent reconciliation of payments to charges by pay source. This is more

common for hospitals that receive a relatively small amount of total revenue from this payment source.

For an analysis of uncompensated care changes occurring in Milwaukee County due to a 1995 proposal to end state subsidies for county general assistance programs and the resulting Doyne-Froedtert merger, see the following report: Bovbjerg, Randall R., Marsteller, Jill A., and Frank C. Ullman, "Health Care for the Poor and Uninsured after a Public Hospital's Closure or Conversion" (Washington, DC: The Urban Institute/ANF, OP-39).

Uncompensated Health Care Provided In Fiscal Year 1999

This report includes data from 123 general medical-surgical (GMS) and 6 specialty (psychiatric, alcohol and other drug, rehabilitation) hospitals that were required to submit uncompensated health care information to BHI under section 153.20(2), Wisconsin Statutes (see Table 1).

Two of these facilities were owned by a county, 35 by a religious institution, 88 by a not-for-profit institution, and 4 by a for-profit corporation.

Table 1. Type of ownership, Wisconsin hospitals, FY 1999

	Number of Hospitals	County	Religious	Other Not-for-Profit	For-Profit Corporation
ALL HOSPITALS	129	2	35	88	4
GMS	123	2	32	86	3

Table 2. Summary of uncompensated health care dollars, Wisconsin hospitals, FY 1997, 1998, and 1999

	Number of Hospitals	Charity Care	Bad Debt	Total Uncompensated Health Care
FY 1997				
ALL HOSPITALS	126	\$98,534,041	\$140,398,192	\$238,932,233
GMS hospitals	120	96,828,852	138,627,892	235,456,744
Specialty facilities	6	1,705,189	1,770,300	3,475,489
FY 1998				
ALL HOSPITALS	129	\$102,796,131	\$154,474,535	\$257,270,666
GMS hospitals	121	101,244,617	151,236,176	252,480,793
Specialty facilities	8	1,551,514	3,238,359	4,789,873
FY 1999				
ALL HOSPITALS	129	\$116,798,329	\$184,215,009	\$301,013,338
GMS hospitals	123	115,728,208	182,325,178	298,053,386
Specialty facilities	6	1,070,121	1,889,831	2,959,952

Source: FY 1997, 1998, and 1999 Hospital Fiscal Survey and FY 1997, 1998 and 1999 Hospital Uncompensated Health Care Survey, Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services

Uncompensated health care at Wisconsin hospitals grew from \$238.9 million in FY 1997, to \$257.3 million in FY 1998, to \$301 million in FY 1999 (see Table 2). During this period, uncompensated health care at GMS hospitals increased each year. Uncompensated health care at specialty hospitals increased from FY 1997 to FY 1998 but decreased in FY 1999.

A large share of the state's charity care comes from relatively few hospitals. Nineteen large urban hospitals each reported

\$2 million or more, and combined, provided \$78.1 million in charity care (approximately 67 percent of the charity care provided by all reporting hospitals) in FY 1999 (Table 3).

The amount of charity care individual hospitals provided ranged from \$0 to \$10.5 million. The wide variation in the amount of charity care that hospitals dispense is due to differences in size, types of services provided, provisions for charity care in their mission statements, and the characteristics of surrounding communities.

Table 3. Wisconsin hospitals that reported more than \$2 million of charity care, FY 1999

Hospital	City	County	Charity Care
St. Luke's Medical Center	Milwaukee	Milwaukee	\$10,508,357

Columbia Hospital, Inc.	Milwaukee	Milwaukee	2,029,641
Total			\$78,055,733

Source: FY 1999 Hospital Fiscal Survey, Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services

Twenty-eight hospitals had bad debt charges greater than \$2 million (see Table 4, next page). Together, these hospitals incurred \$122 million in bad debt, or 66.2 percent of the \$184.2 million in bad debt incurred by all Wisconsin hospitals in FY 1999.

Individual hospitals reported bad debt ranging from \$0 to \$16.1 million. This range may reflect differences in how aggressively hospitals pursued payment, as well as socioeconomic conditions in each hospital's service area.

Forty-one hospitals, generally urban facilities, each had more than \$2 million of total uncompensated health care. These hospitals provided over \$243 million, or 80.7 percent, of all the uncompensated health care provided by Wisconsin hospitals.

Uncompensated Health Care as a Percentage of Patient Revenue

Another way to measure how much uncompensated health care a hospital provides is to express it as a percentage of a hospital's total gross patient revenue (charges), rather than a dollar amount. This allows better comparisons between hospitals of different sizes.

The portion of total gross patient revenue that Wisconsin hospitals provided as uncompensated health care in 1999 varied greatly, from 0.0 percent to 8.6 percent. The average for all reporting hospitals was 3.0 percent (2.9% in FY 1998). GMS hospitals averaged 3.0 percent (2.9% in FY 1998), and specialty facilities averaged 3.2 percent (3.9% in FY 1998).

Charity care for all reporting hospitals averaged 1.1 percent of gross patient revenue, ranging from 0.0 to 4.3 percent. The average for both GMS hospitals and specialty facilities was 1.1 percent.

The three hospitals providing the most charity care as a percentage of gross patient revenue were:

- Lakeview NeuroRehab Center Midwest - Waterford (REHAB), at 4.3 percent
- Beloit Memorial Hospital, Inc. - Beloit (GMS), at 3.7 percent
- Victory Medical Center - Stanley (GMS), at 3.6 percent.

Three hospitals provided no charity care in FY 1999:

- Vencor Hospital - Milwaukee - Greenfield (GMS)
- Select Specialty Hospital – West Allis (GMS)
- Indianhead Medical Center Shell Lake, Inc. - Shell Lake (GMS).

Table 4. Wisconsin hospitals that reported more than \$2 million of bad debt, FY 1999

Total			\$122,009,975

Source: *FY 1999 Hospital Fiscal Survey*, Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services

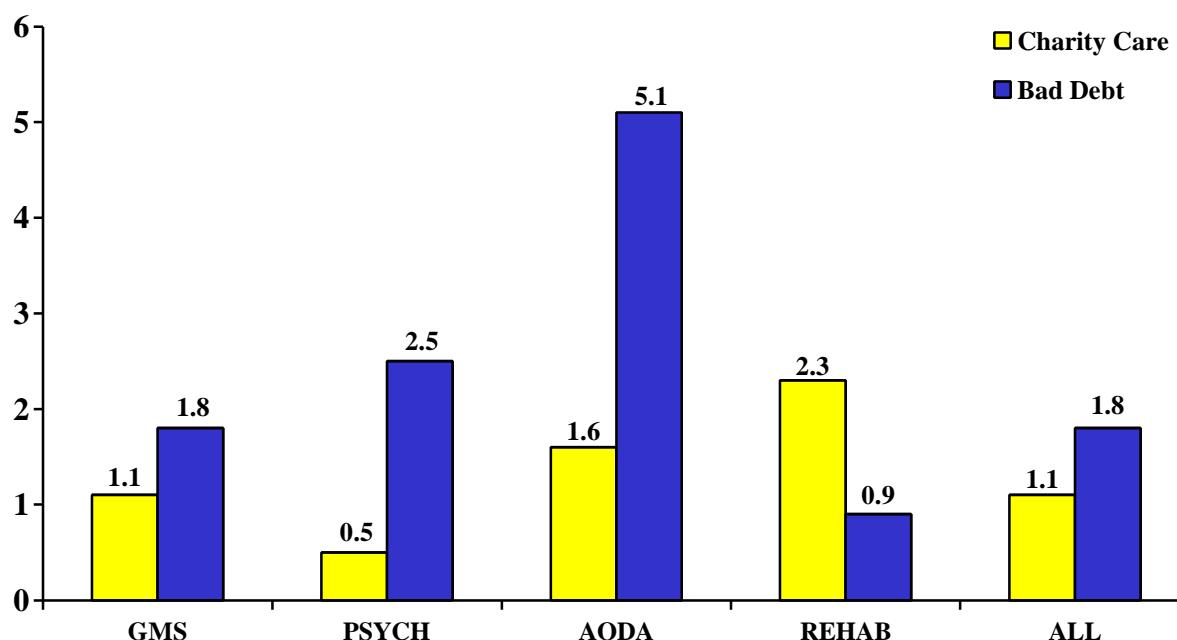

Bad debt averaged 1.8 percent of gross patient revenue, ranging from 0.0 percent to 6.8 percent. The average was 1.8 percent at GMS hospitals and 2.0 percent at specialty hospitals.

The three hospitals generating the most bad debt as a percentage of gross patient revenue were:

- Memorial Hospital, Inc. – Neillsville (GMS), at 6.8 percent
- St. Luke's Memorial Hospital – Racine (GMS), at 5.4 percent
- Libertas – Green Bay (AODA), at 5.1 percent.

Appendix 1 lists each hospital's charity care, bad debt, and total uncompensated health care charges as dollar amounts, and as percentages of total gross patient revenue. Figure 1 shows charity care and bad debt as percentages of total gross patient revenue by hospital type.

Figure 1. Charity care and bad debt as a percentage of total gross patient revenue, by hospital type, Wisconsin hospitals, FY 1999

Source: FY 1999 Hospital Fiscal Survey, Bureau of Health Information, Division of Health Care Financing, Department of Health and Family Services

Uncompensated Health Care as a Percentage of Nongovernment Revenue

Uncompensated health care does not include care provided to patients for which a public program (e.g., Medicare, Medical Assistance, General Relief) pays any of the charges for the care. Another way to measure how much uncompensated health care a hospital provides is to express it as a percentage of total gross nongovernment patient revenue.

Measured this way, hospitals' FY 1999 total uncompensated health care ranged from 0.0 to 30.4 percent. The average for all Wisconsin hospitals was 6.0 percent (6.1% in FY 1998). GMS hospitals averaged 6.0 percent (6.0% in FY 1998), while specialty facilities averaged 5.2 percent (7.8% in FY 1998).

The average charity care for all reporting hospitals and for GMS hospitals was 2.3 percent of nongovernment patient revenue; the average was 1.9 percent at specialty facilities. Bad debt averaged 3.7 percent across all reporting hospitals and at GMS hospitals, and 3.3 percent at specialty facilities.

The three hospitals providing the most charity care as a percentage of nongovernment patient revenue were:

- Victory Medical Center – Stanley (GMS), at 10.7 percent.
- Lakeview NeuroRehab Center Midwest - Waterford (REHAB), at 9.6 percent
- Hayward Area Memorial Hospital – Hayward (GMS), at 8.8 percent.

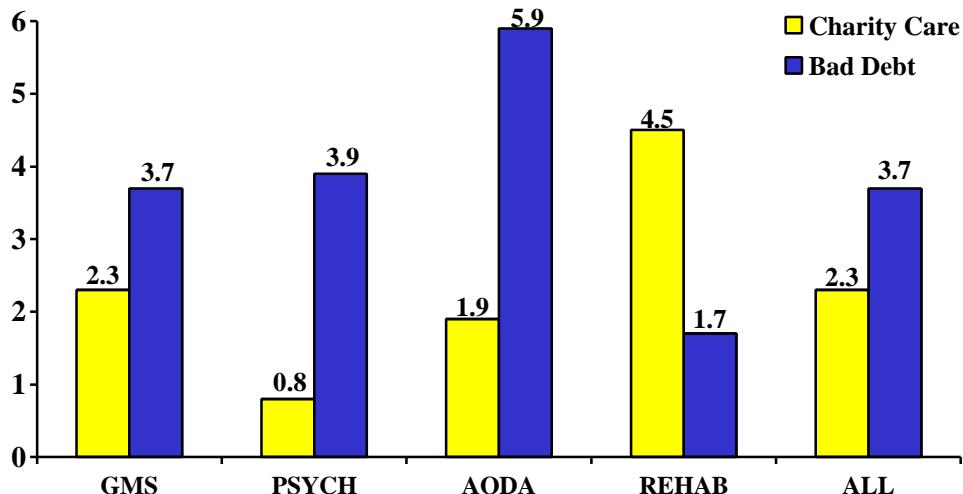

The three hospitals generating the most bad debt as a percentage of nongovernment patient revenue were:

- Memorial Hospital, Inc. – Neillsville (GMS), at 24.1 percent
- Sinai Samaritan Medical Center - Milwaukee (GMS), at 16.1 percent
- St. Mary's Hospital of Superior – Superior (GMS), at 12.5 percent.

Appendix 2 lists each hospital's charity care, bad debt, and total uncompensated health care charges as dollar amounts and as percentages of its total gross nongovernment patient revenue. Figure 2 shows charity care and bad debt as percentages of total gross nongovernment patient revenue for each hospital type.

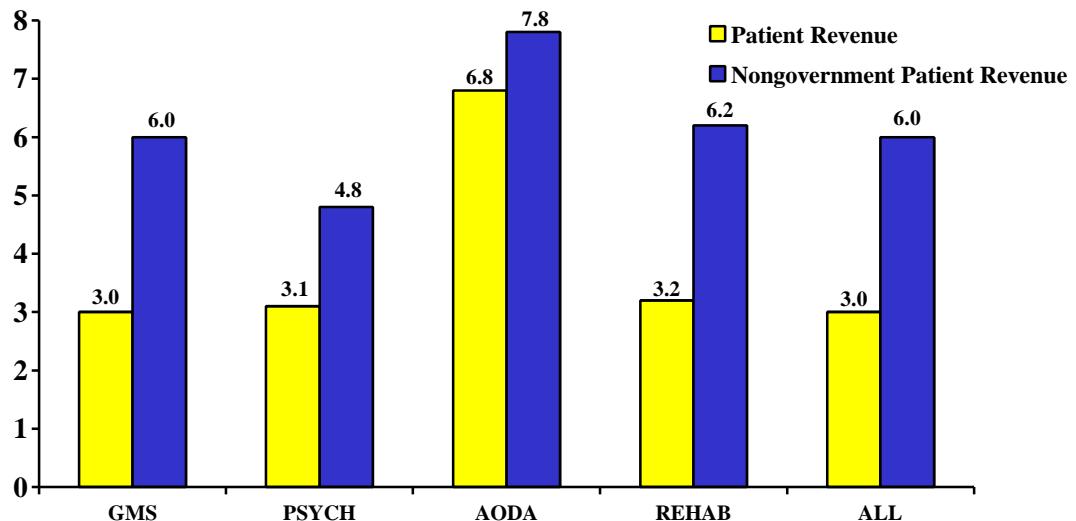

Whether measured against total gross patient revenue or total gross nongovernment patient revenue, AODA facilities had a higher overall percentage of uncompensated health care than GMS, psych, and rehab facilities (see Figure 3). GMS hospitals provided the least uncompensated health care as a percentage of total gross patient revenue. Psych facilities provided the least uncompensated health care as a percentage of total gross non-government patient revenue.

Uncompensated Health Care Projections for Fiscal Year 2000

In accordance with state statute, hospitals submitted anticipated total charges for uncompensated health care for the next fiscal year (FY 2000). Overall, hospitals projected that uncompensated health care would increase 3.5 percent, or \$10.5 million, over FY 1999 (see Table 5). GMS facilities projected an increase of 3.6 percent, or \$10.8 million; specialty facilities projected a decrease of 8.2 percent, or \$242,289.

Most hospitals projected increases in both charity care and bad debt for FY 2000, citing price increases, increased deductibles in patients' insurance, and economic conditions as causes.

Hospitals expected the average amount of charity care to increase by 8.7 percent, or \$10.2 million in FY 2000, while bad debt was only expected to increase 0.2 percent, or \$385,259 (see Table 6).

Table 5. Summary data of actual and projected charges for uncompensated health care, Wisconsin hospitals, FY 1999 and 2000

	Number of Hospitals	Actual FY 1999 Uncompensated Care Charges	Projected FY 2000 Uncompensated Care Charges
ALL HOSPITALS	129	\$301,013,338	\$311,556,056

Hospitals also reported the number of patients who received uncompensated health care services in FY 1999, as well as the number of patients projected to receive uncompensated health care in FY 2000. Hospitals must report using *individual patient visit ledgers*. A new ledger is created for each individual patient registration/visit. One patient visit ledger can apply to each of the following:

- 1) an entire inpatient stay;
- 2) all services rendered to an outpatient on a calendar day;
- 3) an ambulance run pertaining to the transfer of a Medicare inpatient to another facility, or the transport of a Medicare patient to the reporting facility for urgent, emergent or inpatient services;
- 4) monthly durable medical equipment rentals; or
- 5) An entire swing bed stay.

Before FY 1993, hospitals did not track patient visits *per se* but tracked patients/accounts instead. Depending on a hospital's method of counting, a patient who entered the hospital more than once during the course of a year could be counted as having either one or several accounts; or several patients (e.g., a family) could be listed as one account. Counting patients based on the patient ledger method was implemented so that reporting would be more uniform and comparable.

In FY 1999, Wisconsin hospitals reported providing uncompensated health care services to 731,440 patients (see Table 7), up from 701,057 patients in FY 1998. Hospitals projected a 6.5 percent increase, to 779,067 patients, in FY 2000.

Refer to Appendix 3 for a complete listing of each hospital's actual FY 1999 and projected FY 2000 patient figures.

Table 7. Summary data of actual and projected number of patients receiving uncompensated health care, Wisconsin hospitals, FY 1999 and 2000

	Number of Hospitals	Actual FY 1999 Number of Patients	Projected FY 2000 Number of Patients
ALL HOSPITALS	129	731,440	779,067
GMS hospitals	123	728,830	776,288
Specialty facilities	6	2,610	2,779

Projecting Uncompensated Health Care

Along with their FY 2000 projections for uncompensated health care charges and patients, hospitals supplied the rationale they used to make their projections. Most hospitals stated that their projections were based upon an analysis performed during their FY 1999 budget process. These analyses usually took into account the following factors:

- A hospital's historical fiscal year and its most recent year-to-date total number of patients and patient charges;

- Planned price changes;
- Projected volume changes;
- Known usage factors (including the area's economy and demographics);
- Required Hill-Burton program compliance levels;
- Bad debt projections, based upon likely increases in insurance deductibles and co-payments;
- Hospital budget constraints; and
- A hospital's mission statement to support the community.

Verifying Need for Charity Care

Many hospitals stated in their uncompensated health care plans that part of their mission was to serve the poor and under-served. These hospitals usually restricted their uncompensated health care programs to individuals unable to access programs such as Medical Assistance or General Relief, those unable to pay for medical obligations, or those with limited financial resources. Often, hospitals' plans included an economic and statistical profile of the individuals in their service area who would be eligible for uncompensated health care services.

These individuals generally included the recently unemployed; those employed but without employer-provided health insurance; those whose health insurance requires significant deductibles or co-payments; single parents; those recently or currently experiencing a divorce; transients or those without a permanent address; students, as well as their spouses and dependents; retirees not yet eligible for Medicare; and the elderly who have

limited or no Medicare supplemental insurance coverage.

Nearly every hospital had a procedure to determine and verify the income information supplied by persons applying for uncompensated health care services. All hospitals acknowledged that during both the initial and the final determination, the hospital policy would be consistently and equitably applied and that no patient would be denied uncompensated health care based upon race, creed, color, sex, national origin, sexual orientation, disability, age, or source of income.

The following is a summary of the steps that hospitals generally use to determine eligibility or verify applicant information:

- 1) Hospital identifies any uninsured, underinsured, or self-pay patients.
- 2) Patient completes application/determination of eligibility form.
- 3) Patient completes financial statement that includes income, assets, and liabilities.

- Patient supplies documentation of resources (e.g., W-2 pay stubs, tax forms) and outstanding obligations (e.g., bank statements, loan documents).
- 4) Hospital considers federal poverty guidelines and family size.
 - 5) Hospital verifies third-party coverage, if indicated.
 - 6) Designated hospital staff person interviews patient to assess if the patient: has the ability to pay in full, has the ability to pay reasonable monthly installments, or qualifies for General Relief (based on state statutes).
 - 7) Hospital attempts to secure federal, state, or local funding, if appropriate.
 - 8) After the hospital makes an initial determination of insufficient funds, income, and health care benefits, the claim becomes eligible for final review, often by a committee comprised of administrative, business office, social services, and nursing staff. Occasionally, hospital board members serve on these committees.

Hill-Burton Program: Who Still Has an Obligation?

Between 1946 and 1974, a number of Wisconsin hospitals participated in the Hill-Burton program, which provided federal funds to assist in the construction or renovation of public or non-profit hospital facilities. In return for funding, the hospitals agreed to provide a reasonable amount of care without charge or at reduced rates to patients who could not afford health care.

Eleven hospitals still had Hill-Burton obligations at the close of their 1999 fiscal year, according to their uncompensated health care plans (one less than in 1998). Table 9 contains a list of these hospitals.

Hospitals with Hill-Burton obligations must follow federal procedures to determine patient eligibility. Hospitals determine eligibility by comparing the patient's family income to the current federal poverty guidelines. The federal government defines family income as total income from all sources before taxes or deductions.

Hospitals with Hill-Burton obligations must publish a notice of the availability of uncompensated health care at their facility 60 days before the beginning of each fiscal year. Facilities must also post signs publicizing their uncompensated health care programs. It is also the hospitals' responsibility to update and make available to the public individual notices of the availability of uncompensated health care.

These notices are generally distributed to each patient upon admission. A patient applying for uncompensated health care can usually obtain an application at the hospital's business office. The patient then submits the application to a designated hospital staff person who will determine eligibility. The hospital must determine eligibility either within two working days following a pre-service request, or by the end of the first full billing cycle following a post-service request. The hospital must then verify the applicant's income and ineligibility to receive third-party assistance before a final determination can be made.

A hospital cannot bill an applicant who qualifies for the Hill-Burton uncompensated health care program. Instead, approved Hill-Burton bills are submitted to the appropriate hospital fiscal staff person for write-off. Each year a hospital's uncompensated health care allocation is used on a first come, first serve basis. Every hospital participating in the program keeps a Hill-Burton log containing the names of the patients served, dates of service, and the amount applied to the program for each fiscal year.

When a hospital has met its "*fiscal obligation*" under this program, the federal government still requires the hospital to fulfill its "*community services obligation*." This obligation does not have a time limit and remains in effect as long as the present facility exists. In general, this community service obligation prevents a participating hospital from discriminating in the provision of services to patients.

Notifying the Public Regarding Charity Care Availability

Nearly all hospitals reported having procedures to inform the public about the availability of charity care at their facilities. In general, hospitals provide information and applications for charity care at the time of registration, in their emergency rooms and in their fiscal services office. These applications may also be included in a patient's admission packet or with itemized bills that are mailed to a patient after discharge from the hospital.

Many hospitals publish brochures or pamphlets describing the availability of

charity care and identifying the criteria for qualification. Some hospitals offer individual counseling at the time of pre-admission or during the collection process. Signs may be posted in English or other languages, explaining available charity care services. These are usually located in the admitting and emergency entrance areas of the hospital. Hospitals also publish annual notices in local or area newspapers describing charity care programs.

Most public information procedures used by hospitals also fulfill requirements of the

Hill-Burton program. Many hospitals no longer subject to Hill-Burton requirements still follow the procedures established under that program to inform the public about charity care available at their hospital.

GLOSSARY

Abbreviations used in this report:

AODA - Alcohol and other drug abuse

BHI - Bureau of Health Information

FY - Fiscal year

GMS - General medical-surgical

PSYCH - Psychiatric

REHAB - Rehabilitation

Bad debt - claims arising from rendering patient care services that the hospital, using a sound credit and collection policy, determines are not collectible, but does not include charity care [*s. HFS 120.03 (2), Wis. Adm. Code*].

Charity care - health care a hospital provides to a patient who, after an investigation of the circumstances surrounding the patient's ability to pay, including nonqualification for a public program, is determined by the hospital to be unable to pay all or a portion of the hospital's normal billed charges. Charity care does not include any of the following:

- Care provided to patients for which a public program or public or private grant funds pay for any of the charges for the care;
- Contractual adjustments in the provision of health care services below normal billed charges;
- Differences between a hospital's charges and payments received for health care services provided to the hospital's employees, to public employees or to prisoners;
- Hospital charges associated with health care services for which a hospital reduces normal billed charges as a courtesy; or
- Bad debts [*s. HFS 120.03 (4), Wis. Adm. Code*].

General medical-surgical (GMS) hospital - a hospital that provides diagnostic and therapeutic services to patients for a variety of medical conditions, both surgical and nonsurgical, where the average length of stay for 50 percent or more of the patients is less than 30 days.

Gross patient revenue - the total charges generated by hospitals to patients for services provided.

Individual patient visit ledger - a ledger created for each individual patient registration/visit. One patient visit ledger could apply to each of the following: (1) an entire inpatient stay; (2) all services rendered to an outpatient on a calendar day; (3) an ambulance run pertaining to the transfer of a Medicare inpatient to another facility, or the transport of a Medicare patient to a facility for urgent, emergent or inpatient services; (4) monthly durable medical equipment rentals; or (5) an entire swing bed stay.

Specialty hospital - a hospital that provides services to patients with specified medical conditions or for special categories of patients. In Wisconsin this includes psychiatric, AODA, and rehabilitation hospitals, and state-operated mental health facilities.

Uncompensated health care services - charity care and bad debts [*s. HFS 120.03 (35), Wis. Adm. Code*].

FY 1999 HOSPITAL UNCOMPENSATED HEALTH CARE PLAN

Completion of this form is required. Failure to complete and return this form to Bureau of Health Information, Health Care Provider Data Section(HCPDS), (formerly Office of Health Care Information) within 120 calendar days following the close of your hospital's fiscal year may result in a \$100 per day fine.

GENERAL INSTRUCTIONS - Please read before completing form.

Please note that the instructions and definitions are included with the appropriate section. Please read them before completing this plan.

Complete and return the form to HCPDS at the address below within 120 days following the close of your hospital's fiscal year [s. HFS 120.25 (2), Wis. Adm. Code, and s. 153.20, Wis. Stat.]. Keep a copy for your records.

If your hospital is jointly operated in connection with a nursing home, home health agency, or other organization, the hospital shall only submit the required information for the **hospital** [s. HFS 120.22 (3) (a), Wis. Adm. Code].

DO NOT ATTACH A HOSPITAL POLICY AND PROCEDURE FORM INSTEAD OF SUMMARIZING THE INFORMATION FOR A SECTION(S).

Bureau of Health Information

INSTRUCTIONS AND DEFINITIONS FOR THE FY 1999 HOSPITAL UNCOMPENSATED HEALTH CARE PLAN

GENERAL INSTRUCTIONS

This survey now includes only policy and procedure information. Charge, utilization, and Hill-Burton information is now collected on the **Hospital Fiscal Survey**.

All questions on the WHITE FORM need to be completed in order for your hospital to meet the statutory requirement to file an uncompensated health care plan with this office.

Please return the **WHITE COPY** to the Office of Health Care Information, 1 West Wilson Street, P.O. Box 7874, Madison, Wisconsin 53707-7984. **The pink copy is a hospital copy that you should retain in your files for future reference. Please do not send in the pink form.**

If you have any questions about completing this plan, please contact Arnie Clay at (608) 267-0246.

I. HOSPITAL INFORMATION

**Name of Administrator/CEO,
Name and Address of Hospital**

A computer-generated mailing label listing the **name of the administrator/CEO, name of the hospital, street address, city, state, and zip code** has been affixed to the uncompensated health care plan form.

Per s. HFS 120.28, Wis. Adm. Code, any change to this information must be formally reported to HCPDS within 45 days after the event occurs.

Contact Person and Telephone Number

Enter the **name and title of the person** who has primary responsibility for filling out and submitting the plan to HCPDS. Please also enter this person's **direct telephone number, and extension** if applicable.

Contact Organization and Address

Enter the **name of the organization and the business address of the contact person** (above) if the information differs from that listed for the hospital.

Hospital Fiscal Year

Enter the beginning and ending dates of the **hospital's 1999 fiscal year**.

II. DEFINITIONS (Instructions for this section are on page 4).

Uncompensated health care services - charity care and bad debts. [s. HFS 120.03 (25), Wis. Adm. Code]

Charity care - is to be recorded as a deduction from revenue for HCPDS purposes. It means health care a hospital provides to a patient who, after an investigation of the circumstances surrounding the patient's ability to pay, including nonqualification for a public program, is determined by the hospital to be unable to pay all or a portion of the hospital's normal billed charges. Does not include any of the following:

- Care provided to patients for which a public program or public or private grant funds pay for any of the charges for the care;
- Contractual adjustments in the provision of health care services below normal billed charges;
- Differences between a hospital's charges and payments received for health care services provided to the hospital's employes, to public employes, or to prisoners;
- Hospital charges associated with health care services for which a hospital reduces normal billed charges as a courtesy; or
- Bad debts. [s. HFS 120.03 (5), Wis. Adm. Code]

Bad debt - is an expense item. It means claims arising from rendering patient care services that the hospital, using a sound credit and collection policy, determines are uncollectible, but does not include charity care. [s. HFS 120.03 (1), Wis. Adm. Code]

Individual patient visit ledger - the business record for a person who has utilized hospital services during a visit and the resulting balance. Although there are exceptions, one patient visit ledger could apply to each of the following:

- An entire inpatient stay;
- All services rendered to an outpatient on a calendar day;
- An ambulance run pertaining to the transfer of a Medicare inpatient to another facility, or the transport of a Medicare patient to this facility for urgent, emergent, or inpatient service;
- Monthly durable medical equipment rentals; or
- An entire swing-bed stay.

1 Define any terms as they are used in this plan that may be subject to interpretation including, but not limited to, the following:

Income - means...

Utilization - means...

III. GENERAL INFORMATION (Instructions for this section are on page 4).

2 Does your hospital include a provision for charity care as a part of its mission statement?

Yes

No

II. DEFINITIONS

Line 1

Please define any terms that are used in your hospital's uncompensated health care plan that may be defined or used differently in another plan or setting. Several examples have been provided on the form for you to define if they are used in your plan. If you do not have terms that need to be defined, **do not leave the answer space blank**; enter Not Applicable.

III. GENERAL INFORMATION

Line 2

Complete this line by checking the appropriate box.

IV. INCOME DETERMINATION/VERIFICATION PROCEDURES (Instructions for this section are on page 6).

- 3 Summarize the procedures used to determine a patient's ability to pay for health care services, as well as a description of your charity care program. (Attach additional pages if necessary.)
- 4 Summarize the procedures followed to verify financial information provided by the patient. (Attach additional pages if necessary.)

V. PROCEDURE FOR INFORMING THE PUBLIC (Instructions for this section are on page 6).

- 5 Does this hospital have a procedure for informing the public about the availability of charity care at this facility?

Yes

No

- 6 If YES, please describe your procedure.

IV. INCOME DETERMINATION/VERIFICATION PROCEDURES

- Line 3** Summarize the procedure(s) used by your hospital to determine a patient's ability to pay for health care services, as well as a description of your charity care program. Include in the summary:
- a) The steps the patient is required to take to apply for charity care (include a sample of any application forms used);
 - b) The standards your hospital uses to determine applicant eligibility for full or partial charity care (i.e., federal poverty guidelines); and
 - c) A description of your hospital's charity care program (i.e., sliding scale for services, percentage discounts, full waiver of fees, etc.).

DO NOT ATTACH A HOSPITAL POLICY AND PROCEDURE FORM INSTEAD OF SUMMARIZING THE INFORMATION FOR THIS SECTION.

- Line 4** Summarize how your hospital verifies financial information provided by the patients. This may include the written documentation you require (i.e., W2 forms, income tax returns) or when, what type, and to whom follow-up phone calls are made.

V. PROCEDURE FOR INFORMING THE PUBLIC

- Line 5** Complete this line by checking the appropriate box.

- Line 6** If you checked "yes" on line 5, describe the procedure for informing the public about charity care that is available at your hospital. You may include written materials (i.e., brochures) pertaining to charity care made available to patients.

II. DEFINITIONS

Line 1

Please define any terms that are used in your hospital's uncompensated health care plan that may be defined or used differently in another plan or setting. Several examples have been provided on the form for you to define if they are used in your plan. If you do not have terms that need to be defined, **do not leave the answer space blank**; enter Not Applicable.

III. GENERAL INFORMATION

Line 2

Complete this line by checking the appropriate box.

FY 1999 HOSPITAL FISCAL SURVEY

Completion of this form is required. Failure to complete and return this form to OHCI within 120 calendar days following the close of your hospital's fiscal year may result in a \$100 per day fine.

GENERAL INSTRUCTIONS - Please read before completing form.

NOTE: Please refer to the detailed instructions contained in the *Hospital Fiscal Survey Manual: Fiscal Year 1999*.

Fill in all lines: If information for a category is zero, fill in 0. If information for a category is Not Applicable, fill in 0. Do NOT use dashes. Do NOT use N/A. Do NOT use N/AV. Do not leave any lines blank.

Please round all amounts to the nearest dollar.

Complete and return the WHITE form to OHCI at the address below within 120 days following the close of your hospital's fiscal year [ss. HFS 120.22 (4) and 120.25 (2), Wis. Adm. Code, and ss. 153.05 (5) (b) and (bm) and 153.20, Wis. Stat.]. This date can also be found in the "Submittal Deadline" paragraph, page 4, in the manual. Do not send in the BLUE form; keep it for your records.

If your hospital is jointly operated in connection with a nursing home, home health agency, or other organization, and is governed by a common Board of Directors, the hospital shall only submit the required information from the final audited financial statements of the **hospital** except where such information cannot be disaggregated [s. HFS 120.22 (3) (a), Wis. Adm. Code]. (**See special instructions for combination facilities in the accompanying manual.**) All hospital services must be reported if they are included as hospital revenue and contained in net revenue from service to patients. Please refer to page 2 - line 1.

**Bureau of Health Information
Health Care Provider Data Section
1 West Wilson Street, Room 372

V. SUMMARY AND EXPLANATION OF TOTAL REVENUE DOLLAR DIFFERENCES BETWEEN FY 1998 AND FY 1999

	GROSS REVENUE	NET REVENUE
110 Fiscal Year 1999 [line 35 (gross) and line 1 (net)]	<u>\$« TOTGR99 »</u>	<u>\$« TOTNR99 »</u>
111 Fiscal Year 1998 [FY 1997 Fiscal Survey form: line 35 (gross) and line 1 (net)]	<u>\$« TOTGR98 »</u>	<u>\$« TOTNR98 »</u>
112 Increase/Decrease: 1999 v. 1998: (subtract line 111 from line 110) [indicate + or -]	<u>\$« TOTDDG »</u>	<u>\$« TOTDDN »</u>
113 Explain in a short narrative the relative importance of various causes for the dollar differences (lines 110 and 111) in the fiscal year revenue figures (price change, utilization change, other causes?). Attach additional page(s) if necessary. « DIFFXT »		

VII. UNCOMPENSATED HEALTH CARE

Charges for Uncompensated Health Care:

		<u>FY 1999</u>	<u>FY 2000 (Projected)</u>
114	Charges for charity care provided for the fiscal year*	\$« CHCHR99A» (from line 64)	\$« CHCHR00P»
115	Charges determined to be a bad debt expense for the fiscal year **	\$« BDCHR99A» (from line 17)	\$« BDCHR00P»
116	TOTAL charges for uncompensated health care for the fiscal year	\$« TOTCH99A» (add lines 114 and 115)	\$« TOTCH00P»\$ (add lines 114 and 115)

Number of "Patients" Receiving Uncompensated Health Care:

(See manual for definitions – the number of "patients" should be reported as the number of individual patient visit ledgers.)

		<u>FY 1999</u>	<u>FY 2000 (Projected)</u>
117	Number of individual patient visit ledgers that received charity care for the fiscal year	« VLCHA99A»	« VLCHA00P»
118	Number of individual patient visit ledgers whose charges were Determined to be bad debt for the fiscal year	« VLBD99A»	« VLBD00P»
119	Provide a rationale for the hospital's fiscal year 1999 projections in the space below. Explain how the projections used "patients" and total charges for fiscal year 1999, if at all. It could also include a description of the socioeconomic climate of your hospital's market area and how that impacts on your hospital's Uncompensated Health Care Plan. Attach additional page(s) if necessary. « PROJTXT»		

Hill-Burton Uncompensated Health Care Information:

- 120 Does the hospital have current obligations under this program?

Yes

No

No, conditional upon federal audit

« CURROB»

- 121 If YES, enter date(s) the obligation(s) went into effect and the date(s) the obligation(s) will be satisfied:

Effective beginning date(s)

Projected satisfaction date(s)

« OBMO1»/« OBYR1»
Month/Year

« SATOBMO1»/« SATOBYR1»
Month/Year

« OBMO2»/« OBYR2»
Month/Year

« SATOBMO2»/« SATOBYR2»
Month/Year

« OBMO3»/« OBYR3»
Month/Year

« SATOBMO3»/« SATOBYR3»
Month/Year

- 122 If YES, enter the amount of total federal assistance believed to remain under obligation:

« TOTOB»
